

IMPORTANT NEWS

Starting November 10, 2025, our authorized technicians are replacing water meters as part of our ongoing maintenance and upgrading efforts. Some of these upgrades might occur after work hours. This changeout will enhance the accuracy of water readings and service reliability. Please note that there will be temporary disruption to your water service during the swap. We apologize for any inconvenience.

Our contract workers will wear the HST Utility logo.

Feel free to call our office for any questions or concerns
